

ID	Cyp's age	School/College Year of the Child/young person	Has an EHCP?	Is the school/College the only setting in Section I of the EHCP?	What is the Home to school/college distance?	Have the Local Authority refused transport assistance?	If Yes, please comment on the reason given for the Local Authority refusing transport assistance	Is there a reason you cannot accompany your child/young person to school/college?	If transport has been agreed is the transport suitable?	If not, what is the reason why the transport is unsuitable?	Have you already appealed the transport decision?	If Yes, what stage of appeal are you at?	Is there any other useful information you'd like to share?
4037	4	The shrubberies	Yes	Yes	2.5 miles	Yes	They claim the school is 1.9 miles away so is under threshold for travel allowance	I can take them but need assistance as I have 2 children with high needs.			No		
4019	12	Lokrum Fields	Yes	Still waiting 4 weeks post tribunal deadline for them to name school and comply with SENDIST order.	41 miles	No		They won't fund the return taxi. Also have another child's EOTAS to take him to	No	In tribunal it was stated female only driver. Have had arguments over this and presumed my child will be ok with male driver after a few weeks as other children have accepted this. Now, after I then said a female chaperone would be needed with a male driver, they found female driver but say that they will be constantly tendering and this driver can change weekly. This would mean I do nothing but a accompany my daughter to her school and stay there in the day (as no return taxi allowed) to get her used to new drivers. I asked in email for their policy mid July and radio silence since. The transport woman was, in my opinion, a bully on the phone and I told her, I've won a tribunal, I'm not re- opening it with you. She tried to get me to accept mileage for me to transport and when I wouldn't asked me if I realised how expensive all this was.	No		I'm happy to share/help in group action as I've experienced transport unlawfulness straight away.
3999	17		13 Yes	Yes	15 miles one way	Yes	Post 16 and although we appealed and won last year for two years due to exceptional circumstances it's now been taken away	Chronic health problems mean I can't guarantee I can transport over 60miles a day			Yes	Won't let me re appeal so now on second stage complaint as they have told me this is the only way I can re appeal	
3998	19	Post 16	Yes	Yes	25 miles approximately	Yes	On appeal said that they were in line with their policy and would not provide any additional support	Yes. Mum works full time and Dad has long term health issues	No	Not provided and budget doesn't meet need	Yes	Completed and told there was no further appeal stage I could use	I have just applied for fresh transport for Star College and anticipate another refusal when I appeal this one

4005	17	Post 16 - repeating year 12	Yes	Not at the moment - awaiting review to get it amended	8 miles	Yes	They have stated they do not provide taxis for Post 16 only bus pass or money for us to take him (still need to get EHCP amended)	Younger sibling needing me at home & taking to school, husband's work commitments. Our son needs to start doing things more independently but can't manage a bus which would stop on the wrong side on busy A38, would have to cross the busy road and walk about a mile down a single lane.			No		Had to withdraw son from a specialist residential college due to lack of understanding and knowledge of his needs, inappropriate boundaries and behaviours and him getting aggressive towards us at home. We had agreed to money to take/collect as this was at weekends and one of us could still be home for our younger child. To take him to the yard for his day would mean leaving home at 7.30am, leaving my daughter to get ready for school, leaving the house/locking up and getting to a bus stop on her own; she is too young to be doing this. A taxi is the only suitable way for him to get to and from the yard, giving him some independence and not impacting the rest of the family.
4004	11 and 19	7 and something else?	Yes	Yes	5.7 & 8.6	Yes	Waiting to hear for 11yo but 19yo we were told to appeal once she's 'full time'. 7 months in - still not at full hours by far	School runs and work.			Yes	Submitted and chased	
4003	12	Llangattock School Monmouth	Yes	Yes	10 miles	No	They haven't exactly refused but are saying my only option is a mileage allowance to take him myself	Work commitments - he only goes 3 days a week and I work on those days, the round trip takes over an hour and I can't afford to start late and finish early!	No	Because they're trying to force me to transport him instead of providing a taxi	Yes	I thought I had appealed but apparently now I need to fill in a form which I'm happy to share with the PCA.	The form is entirely inappropriate to our circumstances. It asks if a neighbour can transport my child, as though that's a reasonable option for a child with SEN attending a school 10 miles away! Then it goes on to ask for full details of all benefits I receive and my work details, and then says I can't appeal based on a disagreement with the policy itself even though the policy appears to be unlawful!
4001	16	Year 12	Yes	Yes	7.8 miles	Yes	They have provided a personal travel allowance	Yes I take my primary age daughter to another school, in another town 8 miles for the same time.	No	A PTA does not cover the cost of wheelchair accessible transport to and from school each day	Yes	I have been rejected from the first closed panel hearing. I was not aware there are other stages.	
4000	12	EOTAS plan so 2 places to attend	Yes	nothing in section	17 one way	Yes	It's not routine school hours	Have to arrange someone else to collect daughter as timings make it impossible.			No		Even when he had it, it never worked as never kept same driver or company more than a term.

3997	18	Star college	Yes	Yes	4.1 miles	No	Offered bus or travel allowance but no bus there and I don't drive	I don't drive no public transport to get there a private taxi costs too much	No	He needs supervision as has epilepsy and I don't drive and there's no public transport	No		My whole family have ill health and have 2 other young adults who need help and support from me
4040	2 x 11years	Yr 7	Yes	Yes	8 miles approx	No			No	Unsuitable because its 3 working days left to my twins starting a new school for the first time transported without parent and we still have not been provided with times or been told who will be driving and supporting or of course been introduced or given opportunity to meet twins despite their care plans highlighting need to do so and risk of refusing to go in transport if not feeling secure	No		We have been told company is 5 star- whilst we dont blame them as it seems they were only allocated 2 weeks ago the have repeatedly said they wd get back to us with names ids and intro plans but have not. Transport at La have been pretty uncommunocatove we wrote to them last night copying in sendiass and dissability team and school. No response as yet... we have a child to get to school to who is anxious about being late
4039	16		12 Yes	Yes	Worcester	Yes	He Doesn't have assistance but has been refused his transport	Work commitments plus too far	No		Yes	Waiting for a appeal date
